APPARENTLY DROWNED PERSONS, ETC.

THE FOLLOWING ARE THE METHODS RECOMMENDED TO BE ADOPTED BY THE ROYAL HUMANE SOCIETY.

CAUTIONS.

1. Lose no time.—2. Avoid all rough usage.—3. Never hold the body up by the feet.—4. Nor roll the body on easks.—5.

Nor mb the body with salt or spirits.—6. Nor inject tobacco smoke or infusion of tobacco.

If APPARENTLY DROWNED, SEND QUICKLY FOR MEDICAL ASSISTANCE, BUT DO NOT DRLAY THE FOLLOWING MEANS.

I. Convey the body and rub it dry; then wrap it in hot blankets, and place it in a warm bed in a warm chamber.

II. Wipe and cleanse the mouth and nostrils.

IV. In order to restore the natural warmth of the body:—

1. Move a heated covered warming pau over the back and spine.

2. Put bladders or bottles of hot water, or heated bricks, to the pit of the stomach, the arm-pits, between the thighs, and to the soles of the feet.

3. Foment the body with but flanuels.

Foment the body with hot flanuels.

Immerse the body in a warm bath as hot as the hand can bear without pain, as this is preferable to the other means

4. Immorse the body in a warm but as not as the hand can bear without pain, as this is preferable to the other means for restoring warmth.

5. Rub the body briskly with the band; do not however, suspend the use of the other means at the same time.

V. In order to restore breathing, introduce the pipe of a common bellows (where the apparatus of the society is not at band) into one nostril, carefully closing the other and the month; at the same time drawing downwards, and pushing gently backwards, the upper part of the windpipe, to allow a more free admission of air; blow the bellows gently, in order to inflate the lungs, till the breast be a little raised; the month and nostrils should be then set free, and a moderate pressure made with the hand upon the chest. Repeat this process till life appear.

VI. Electricity to be employed early by a medical assistant.

VII. Inject into the stomach, by means of an elastic tube and syringe, half-a-pint of warm brandy and water, or wine and water.

VIII. Apply sal-volatile or bartshorn to the nostrils.

IF APPARENTLY DEAD FROM INTENSE COLD.

Rnb tbe body with suow, ice, or cold water. Restore the warmth by slow degrees; and after some time, if necessary, employ the means recommended for the drowned. In these accidents it is highly dangerous to employ heat too early.

IF APPARENTLY DEAD FROM HANGING.

In addition to the means recommended for the Drowned, bleeding should early be employed by a medical assistant.

IF APPARENTLY DEAD FROM INTOXICATION.

Lay the body on a bed, with the head raised; remove the neckcloth and loosen the clothes. Obtain instantly medical assistance, as the treatment must be regulated by the state of the patient; but in the meantime apply cloths soaked in cold water to the bead, and bottles of hot water or hot bricks to the calves of the legs and to the feet.

IF APPARENTLY DEAD FROM APOPLEXY.

The patient should be placed in a cool air, and the clothes loosened, particularly about the neck and breast. Bleeding must be early employed by a medical assistant; the quantity regulated by the state of the pulse. Cloths, soaked in cold water, spirits, or vinegar and water, should be kept applied to the head, which should be instantly shaved. All stimulants should be avoided. In case of Coup-de-soliel, or strokes of the sun, the same means to be used as in Apoplexy.

GENERAL OBSERVATIONS.

On the restoration to life, a teaspoonful of warm water should be given; and then if the power of swallowing be returned, small quantities of warm wife, or weak brandy and warm water; the patient should be kept in bed, and a disposition to sleep encouraged, except in cases of 'Apoplexy, Intervieation, and Coup-de-soliel. Great care is requisite to maintain the restored vital actions, and at the same time prevent undue excitement.

The treatment recommended by the Society is to be persevered in for three or four hours. It is an erroneous opinion that persons are irrecoverable because life does not soon make its appearance; and it is absurd to suppose that the body must not be meddled with, or removed, without the permission of a coroner.

It is a Berough Corporate; sends two Members to the Commons House of Parliament, the first in 1159, 5th Henry II. That Parliament granted the King 2d, in the pound. The resident burghers of the cities of London and Bristol, and of Waterford and Westford in Ireland, are free from all toll dues upon the importation of their merchandise into the Port of Livernool.

Liverpool.

The boundary of the Port of Liverpool, as fixed by the Commissioners named in the commission of the 10th George I., in their certificate to the Exchequer, dated 28th Nov. 1723, is as follows:—"From the Red Stones, in Hoylake, on the point of Wirral, southerly, to the foot of the river called Ribblewater, in a direct line northerly, and so upon the south side of the said river to Hesketh Bank, casterly, and to the river Astland and Douglas shore, and so all along the see coasts of Meols and Formby into the river Mersey, and all over the rivers Mersey, Irvell, and Weaver." The same boundaries had been previously defined by Commissioners on the 1st Nov. 1650. defined by Commissioners on the 1st Nov. 1680.

Its Pair-days are 25th July and 11th November. Ten days before and ten days after each Fair-day, a hand is exhibited in front of the Town-hall, which denotes protection—during which time no person coming to or going from the town, on business connected with the fair, can be arrested for debt within its liberties. Its markets are held on Wednesday and Saturday, and the Corn market on Tuesday and Friday.

- 666 Tradition informs us that St Patrick this year sailed from the banks of the Mersey on his celebrated mission to Ireland, and suffered shipwreck at the Isle of Man.

1860 Funeral of the late Captain William Harrison, who was unfortunately drowned in the Southampton water, on 21st January. Captain Harrisou was in command of the Great Eastern steam-ship at the time of the accident, and from his long connexion with Liverpool his death was universally deplored. His remains were attended to St. James' Cemetery by his worship, T. D. Anderson, Esq. Mayor, the officers of H.M. ship Hastnags, the officers and crews of the Cunard Line of Packets, and many of the leading merchants and shipowners of the town—January 27.

— The Whitworth eighty-pounder gun, and smaller ones,

Packets, and many of the leading merchants and shipowners of the town—January 27.

The Whitworth eighty-pounder gun, and smaller ones, were tested in the neighbourhood of Southport; a large number of scientific gentlemen present. The distance reached was about 7000 yards—February 22.

The young Prince of Oraugo visited Liverpool, February 23-24.

The steamer *Nimrod*, Captain Lyall, trading between Liverpool and Cork, wrecked off St. David's Head, between the South Bishop and Ramsey Island, during a violent gale, February 28. All on board (about forty souls) perished.

The Infant Orphan Asylum, Myrtle-street, inaugurated 13th March.—See 1858-9.

The Hangurian, 2188 tons burthen, one of the Montreal Ocean Steam-ships, Captain Jones, which sailed from Liverpool for Cana la on the 8th Feb. was wrecked on Cape Ledge, Sable Island, South of Nova Scotia, on the night of *naday the 19th. All on board perished,—cal in passengers 45, steerage 80, and a crew of 80; total 205. The vessel was new, and valued at from £40,000 to £50,000. The cargo was insured for £100,000.

NOTICE TO THE PUBLIC.

BIRTHS.

BIRTHS.

Parents, in order to seeme legal and other advantages for their children, ought to apply as early as possible after their birth to the registrar of the district to have them registered. Parents, by making the said app leation within six weeks, may have their children registered free of expense. After six weeks the expense will be 7s 6d, and after six months they cannot he registered at all. This register is the only legal one which is admitted as evidence of the time and place of birth, as also of the precise age of the child. It has been decided by Judges in Courts of Law, "That an entry of a birth made by a clearyman in the register of hantsms is not evidence of the a clergyman in the register of haptisms is not evidence of the time and place of birth."

DEATHS. In case of death, it is desirable that a medical certificate of the cause of death be delivered to the registrar at the time of registering the death, by a person who was either present at the death, or in attendance during the last illness of the

deceased.

N.B.—Persons refusing to register a birth or death are liable to fine and imprisonment.

MINTS FOR THE PRESERVATION OF LIFE FROM DROWNING.

The weight of the human body is so nearly equal to that of the water which it displaces when in a floating position, especially in sall twater, which is heavier than fresh, that if while lying on the back the lungs are distended, as is usual

when what is ealled "holding the breath" is performed, a person will float for almost any length of time, even without movement of the legs or arms, provided the month be raised, the ears be under water, and the act of inhaling and exhaling be done expeditionsly and with judgment. If this be practised in smooth water, confidence will soon be gained; if in addition to the above suggestions a gentle horizontal motion of the hands be added, greater buoyancy is effected, and what is called swimming on the back is attained by merely kicking with the legs in a steady and uniform manner.

visiting ships as they arrive in and leave the river. The work of this society is to visit the seaman in his own home, afloat—that is to say, on board his ship—at the earliest moment after the vessel enters the river; to bring before him the Gospel; to supply him with the seriptures and tracts; to exhibit an interest in his temporal welfare, by directing him to the Sailors' Home, with all its advantages; to point out respectable lodging-bouses, and to warn him of the dangers and temptations by which he will be assailed the moment he sets his foot on shore. Also, to visit ships on their leaving port, to distribute the scriptures, books and tracts, and to give recommendations to chaplains abroad.

Fire and Life Insurance and Annuity Business transacted on liberal terms. The Life Rates lower than those of most other Offices.

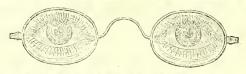

SPECIAL FEATURE.

NON-FORFEITURE OF POLICIES.—In case of the inability of the Assured, from whatever causes, to continue the Premiums on an ordinary Life Policy, the Company would, in consideration of the amount received, after a period of three years from the date of the assurance, issue a paid-up Policy for that amount, together with any Bonus that may have been added.

The usual Commission allowed to Solicitors and others introducing Business.

Milners' Gunpowder-proof, Drill-proof, Picklock-proof, Solid Locks & Solid Lock Cases & Doors.

Applied to all Milners' Safes, afford the only security against a Safe being blown open by filling the Lock through the key-hole with gunpowder, the method now so generally adopted by burglars in violating Safes. All Milners' Safes of former make, as well as all other Safes, without their Powder-proof Lock, are liable to be opened by the plan now used by thieves. The public are cautioned before buying Safes called Fire-proof, with Powder-proof Locks, to see them well-tried by strong fire, and and by filling the Locks with grapowider. and by filling the Locks with gunpowder.

This Society has now been established Fifty-one Years, its governing principles being those of Mutual Assurance; and it has paid to the representatives of 6617 deceased members, £5,448,264 sterling. The Capital of this Society, for meeting existing engagements, is upwards of Two Million Pounds sterling, and is almost wholly invested on Government and Real Securities.

and Real Securities.

The Rates of Premium are below those of most Offices, and at the age of 45 and upwards, not less so than 10 per cent. a benefit in itself equivalent to an Annual Bonus.

There is no proprietary to divide with the Assured the profits of this Institution, which is one of the very few purely Mutual Insurance Offices. In addition, however, to the entire profits of the Society, persons now effecting Insurances will be entitled to participate in the benefits to be derived from the Reserve Fund, now exceeding £200,000, and which, affording all the protection of a Proprietary Capital, will, at the same time, increase, instead of diminish, their future Bonuses.

NO CHARGE IS MADE FOR POLICY STAMPS.

The Life Association of Scotland has twice received the approval and sanction of the overnment, and is one of the largest and most successful Life Assurance Institutions in the largeon. The Assurances transacted since its establishment amount to Five Million Pounds variing, and are almost all on First-class Lives. The ample and rapidly increasing Funds are invested incipally on First-class Securities over Land. The Policy-holders incur none of the Risks of Intership, and the Sums Assured are guaranteed. The accumulated Funds are now upwards of 51,399, and the Annual Income is £151,000.

The Policies now being issued by the Association do not contain several of the Restrictions mmonly imposed on Assured Lives, and confer on the Policy-holders unusual and important ucilities and privileges. Intending Assurers are requested to examine the advantages offered by the

An Allocation of Profit is made every year to Participating Policy-holders of five years' standing the date of the preceding balance, and the share of profit is applied in reducing their next remiums. Each Policy-holder thus enjoys during his own life his share of the profit. The annual sturn of Profit to Policy-holders of the First Series has now (1859) attained to $37\frac{1}{2}$ per cent. of the remiums—that is, a Policy-holder whose Premium is £50 obtains this year a return of £18 15s, and another whose premium is £20 obtains £7 10s.

The OUTLAY FOR AN ASSURANCE may be materially lessened by means of the "Half Credit stem," payment of only one-half of the first six years' premiums being required under Policies of 00. THE ROYAL INSURANCE CO.

PRESONS assured by this Company are not subject to any Covenants or Calls, to make good losses which may happen to themselves or others, nor do they depend upon an UNCERTAIN FUND OR CONTRIBUTION, the Capital Stock of this Company being an unquestionable Security to the Assured, in case of Loss.

It is indispensably necessary that every Company which undertakes to replace the loss occusioned by Fire, or to provide by a specific sum, or by an annuity, the means of subsistence to the widow and the orphan, should be able to show its undoubted ability to perform those engagements. As ample evidence of the standing and position of the Royal Insurance Company, it may be stated that its subscribed CAPITAL is

TWO MILLIONS STERLING.

The CAPITAL actually paid up and accumulated amounts to upwards of

SEVEN HUNDRED THOUSAND POUNDS.

It cannot be too strongly pressed on the attention of the Assurer that Security is the first desideratum in all Insurance transactions, and that his object is not attained unless the event or contingency against which he wishes toguard is provided for, from the moment he has paid his Premium, under all possible circumstances.

It is therefore manifest that the Capital of an Insurance Company should be sufficiently large to meet all possible demands, and that its amount should be distinctly stated, in order that its entire

sufficiency to meet all claims may plainly appear.

FIRE DEPARTMENT.

THE RAPID PROGRESS & POSITION OF THIS BRANCH OF THE COMPANY'S BUSINESS

WILL BE BEST SHOWN BY THE FOLLOWING

EXTRACTS FROM THE REPORT FOR THE YEAR 1858:-

The experience of the last year affords a striking evidence of the successful working, whilst it at the same time furnishes an equally satisfactory illustration of a theory adopted by the Board of Directors, viz:—

That a large revenue, if legitimately and prudently attained, forms a basis of security which no Office of small business can possess to an equal extent.

The increase abuse of the last three years exceeds the entire business of some of the existing, and many of the recently defunct Fire Insurance Companies of this kingdom.

The Premiums for the year 1855 being £130,060 | Whilst the Premiums for 1858 are...£196,148

Showing an actual increase of £66,038, or upwards of 50 per Cent.

The recent returns of Duty made by Government for this latter year (1858) again show the "Royal" as more than maintaining the ratio of its increase as stated in former years. Only one among the London Insurance Offices exhibits an advance to the extent of one-half the increase of this Company, whilst all the others respectively fall far short of the moiety of our advance.

LONDON BRANCH.

The progress of the London business shows the largest advance its Fire Revenue has ever made.

Its nett Premium in 1857 was £27,766 8 10 | Wbilst in 1858 it amounted to £37,681 11 9

Showing an increase of £9,915 2 11, or more than 30 per Cent.,

ABOVE THE PRECEDING YEAR.

LIFE DEPARTMENT.

THE COMPANY IS LIKEWISE ENABLED, BY SIMILAR REFERENCES, TO DIRECT THE ATTENTION OF THE PUBLIC TO THE

WONDERFUL PROGRESS OF THIS BRANCH.

The amount of new Life Premiums received this year is by far the largest received in any similar period since the commencement of the business, and must far exceed the average of amount received by the most successful Offices in the kingdom. The number of Policies issued in the year was 822, the sum assured £387,752 6s. 8d, and the Premium £12,354 3s. 4d. These are next amounts, after deducting guarantees. These figures show a very rapid extension of business during the last ten years. In the year 1848 the new Premiums amounted only to £1,380 9s. 1d., so that it will be seen that they are exceeded more than nine-fold in the last year! The following Table proves that this increase has taken place by almost regular yearly advances of considerable magnitude. Thus,—

YEAR.	NO.	F POLI	ClES.		SUM ASSURED.					NEW PREMIUMS.				
1848		98	***	***	£48,7	34 17	0		•••	£1,380	9	1		
1850		190			95,65	0 9	11			2,627	4	7		
1852		422			181,50	4 10	6			5,828	5	10		
1854		408			161.54	8 13	4		***	4,694	16	0

1 858	***	832	***	3	37,75	3 6	8	•••		12,354	3	4		

This amount of new business will, moreover, appear still more encouraging when it is added that the policies issued are on car-fully selected lives, as in the same year no less than 129 proposals for an aggregate sum assured of £70,974 were rejected, as not coming fully up to the standard of eligibility established by the Company.

THE DIRECTORS INVITE ATTENTION TO A FEW OF THE ADVANTAGES THE "ROYAL" OFFERS TO ITS LIFE ASSURERS:

1st.—The Guarantee of an Ample Capital, and exemption of the Assured from Liability of Partnership.

2nd.—Moderate Premiums.

3rd.—Small Charge for Management. \ 5th.—Prompt Settlement of Clair 6th.—Days of Grace Allowed, with the most Liberal Interpretation.

4th.—Large Participation of Profits by the Assured, amounting to TWO-THIRDS of their Nett Amount, every Five Years, to Policies then two Entire Years in Existence.

5th .- Prompt Settlement of Claims.

The extraordinary success of the Company, & the perfect security ITS GREAT PESOURCES AFFORD TO INSURERS, HAVE BEEN COMMENTED UPON BY MOST OF THE FEADING NEWSPAPERS IN THE COUNTRY. THE FOLLOWING ARE ABSTRACTS OF A FEW OF THESE NOTICES:— THE FOLLOWING

MES MONEY ARTICLE.

At the Annual Meeting of the Royal Insurance Company to-day, the Report for the year 1858 stated that the Premiums received in the Fire Department amounted to £196,148, showing an increase of £66,088, or more than 50 per Cent., in three years. A Dividend of 3s, and a Bonus of 4s. per Share were declared, free of Income Tax, and £30,000, being the amount of undivided Profits, was carried to the Reserved Fund, now raised to £140,850. In the Life Department 832 New Policies were issued in the year, Assuring £387,752, upon which £12,354 was received in New Premiums.—August 6, 1859.

Daily News (London).

At the Annual Meeting of the Royal Insurance Company, the Directors' Report was favourably rcceived. In the Fire Department the Fremiums for the year 1858 were stated at £196,148, being £56,088, or more than 50 per cent., more than in 1855. The amount of new Life Premiums received in 1858 was larger than in any previous period .- AUGUST 9, 1859.

The London Standard, Morning Herald, and Evening Herald.

The transfer from profit and loss of £30,000 to the Reserved Fund, making the total to the credit of the latter account of £140.850, attests the financial results of operations as conducted under the superintendence of a vigilant Board and well selected staff of officers .- AUOUST 8, 1859.

Morning Post (London).

The Report of the Royal Insurance Company, which was published in the Morning Post this morning contraction. ing, cannot be otherwise than most gratifying to the proprietors and assurers, as showing that, notwithstanding the extraordinary loss by the great fire at Valparaiso (upwards of £20 000), the losses still continue less than the calculated average— August 9, 1859.

Daily Telegraph (London).

The progress of the Company during the last ten years has been highly satisfactory, especially as it has enabled the Directors to declare a dividend and bonus for the year 1858 equal to 172 per cent. on the original shares, and to make an addition of £30,000 to the Reserve Fund .-AUGUST 10, 1859.

Post Magazine.

FIRE PREMIUMS .- In round numbers, nearly Two HUNDEED THOUSAND POINDS,—being at the rate of upwards of £600 per office day throughout the entire year, or £100 per office hour from the 1st January to the 31st December. The increase in the Life Branch of the Office is more remarkable than even that of the Fire Department. Instituting a comparisou between the Fire Premiums for 1855 and those for the past year, the figures in the Report show an increase past year, the figures in the report sow an interaction of a power soft of per cent.; whereas in respect of new Life Premiums the increase for the biennial period 1854-56 was 88 per cent., and for the biennial period 1856-58 the increase was 40 per cent. If ws compare the single year 1858 with the year 1854, the accession of new business is still more striking, the one being nearly three times that of the other .-AUGUST, 10, 1859.

Morning Star (London).

The Royal Insurance Company has met with steady and uninterrupted success during the whole of the fourteen years of its existence -- August 10, 1859.

The Atlas.

The Report adopted at the Annual Meeting of the Royal Insurance Company exhibits a remarkable degree of prosperity.-August 13,

The Liverpool Mail,

At every Anunal Meeting since the formation of the Company, we have witnessed the same the same wise forbearance, the same determination to give paramount consideration to the interests and to the security of the assured, the same anxicty to establish the Office upon a broad and immoveable basis. The result is, that the reputation of the "Royal" stands so high, that we read without astonishment of the otherwise marvellous successes which have been achieved by it within the last few years .- August 9, 1859.

The Liverpool Courier.
The figures contained in the Directors' Report exhi-

bit a rate of progress in both departments of insurance which is something remarkable.-August 6, 1859.

Manchester Examiner and Times.
The Report read and adopted at the fourteenth
Annual Meeting of this Company, held in Liverpool, on the 5th instant, shows that the Company's business for the year 1858 has been more than ordinarily successful.-August 11, 1859.

Manchester Courier.
THE ROYAL INSURANCE COMPANY.—The Annual Meeting of this Company was held on the 5th inst. The Report speaks most favourably of the continued and increasing prosperity of the Company.-August 13, 1859.

The Edinburgh Evening Post,

The facts and figures set forth in that document speak for themselves in far more expressive terms than any we could employ in the way of comment, Institutions conducted on the sound and enlightened principles which govern the management of the Royal Company have a sure foundation for a wide and progressive increase of productive business.—August 17, 1859.

Halifax Courier.

The facts exhibited in the Report, we think, irreragably prove the soundness of the principles on which the Company has been conducted; the per-severance and assiduity with which it has been brought before the public; and, lastly, the great confidence which is reposed in it, and most deservedly, by what may be termed the mercantile community in Europe and America. AUGUST 6, 1859,

Halifax Guardian & Mona's Herald ROYAL INSURANCE COMPANY, LIVERPOOL—THE Report read and adopted at the fourteenth Annual Meeting of this Company, held in Liverpool last week, shows that the Company's business for the year 1858 has been more than ordinarily successful .- August 13, 1859.

Wesleyan Times (London)
The affairs of this important Company evidently stand in a sound and prosperous condition, and its operations have increased, not through the purchase or amalgamation of other undertakings, but from the valuable character of its own connections and highly efficient management. -August 15, 1859.

The Nonconformist (London),

THE ROYAL INSURANCE COMPANY .- When we consider the number of Insurance Companies which have been brought into a short-lived existence within the last few years, many of which have either transferred their business to, or amalgamated with others, and, sad to relate for the unfortunate shareholders, too many now winding up in Chancery, it is gratifying to record the transactions of one of the most successful assurance institutions in the United Kingdom.—August 17, 1859.

Morning Advertiser (London .

The Report presented to the shareholders of the Royal Insurance Company, at the meeting in Liverpool last week, is highly satisfactory, since it demonstrates most conclusively the increasing prosperity of the undertaking. August 10, 1859.

Weekly Chronicle and Register.

THE ROYAL INSURANCE COMPANY - This Company, which we believe has the honour of being the first Insurance Company registered under the 7th and 8th Vict., cap. 110, and furthermore of being one of the most successful Companies everregistered under that remarkable Act, has just held its fourteenth Anunal Meeting.—August 13, 1859.

Gore's Advertiser.

The Royal Insurance Company is a striking instance of the success which attends the combined efforts of Liverpool commercial menin conducting Institutions of this kind. Ever since its establishment its position has been gradually improving, mutil, at its fourteenth Anniversary Meeting, on Friday, its directors are enabled to declare a dividend equal to 174 per cent. on original paid-up capital .- Aug. 11,1859.

Leeds Times.
The figures of the Report are of a striking kind. The Premiums in 1855 were £130,060, while in 1858 they amounted to £196,148. The increase, £66,088, is said to exceed the entire business of many existing lusurance Companies.—August 13, 1859.

Leeds Intelligencer.
The amount of Fire Premiums was shown to reach the enormous sum of £196,148, being an increase of no less than £66,088 in three years, or more than 50 per cent. advance in that comparatively short period .- August 13, 1859.

Daily Chronicle (Newcastle-on-Tyne.

PROGRESS OF LIFE AND FIRE INSURANCE.—The Report of the Royal Insurance Society, read at the Annual Meeting, the other day, furnishes interesting proof of the progress which is being made in the insurance of life and property. At the same time it is to be observed that the unusual influx of new business to the company clearly shows the increased confidence of the public in this establishment .- August 17, 1859.

This Corporation has granted Assurances on Lives for a period exceeding One Hundred and Thirty Years, having issued its first Policy on the 7th June, 1721.

Two-thirds, or 66 per Cent. of the entire profits are given to the Assured.

Policeies may be opened under any of the following plans, viz.:-

At a low rate of premium, without participation in profits, or at a somewhat higher rate, entitling the Assured, either after the first five years, to an annual abatement of premium for the remainder of life, or, after payment of the first premium, to a participation in the ensuing Quinquennial Bonus.

The high character which this ancient Corporation has maintained during nearly a Century and a Half, secures to the public a full and faithful declaration of profits.

The Corporation bears the whole Expenses of Management, thus giving to the Assured, conjoined with the protection afforded by its Corporate Fund, advantages equal to those of any system of Mutual Assurance.

All Policies are issued Free from Stamp Duty, or from charge of any description whatever, beyond the Premium.

The fees of Medical Feferees are Paid by the Corporation.

Annuities are granted by the Corporation, payable Half-Yearly.

STEPHENS'

EMPROYEMENTS IN INK AND WRITING FLUIDS.

The annoyance of writing with Inks which would not flow from the Steel Pen must be in the recollection of many persons.

THE BLUE-BLACK WRITING FLUID,

invented by Henry Stephens, was the first successful attempt to ready this inconvenience. Being a perfect solution of Colour, and not a suspension by means of gum, it flows from the Pen and combines with the Paper in such a manner as to insure ease and facility of writing, with a perfect colour and permanence.

Out of numerous flattering Testimonials received by the Proprietor, the following is respectfully, and by permission, submitted to public notice:—

Sir,—There is an impression generally existing that your admirable Ink is not adapted for the copying press (I mean your Blne-Black.) Allow me to remark that it would be a material benefit to yourself and the Public to make it generally known that the Ink in question is better adapted for the press than any other, inasmuch as it retains its colour, and is not apt to assume that brown colour that most of the ordinary copying inks do after a short lapse of time. I have used your Ink for the last eight years, and copy all letters or memoranda of importance, and have never yet found anything to equal it as a Certise Ink, (of its other superior qualities I need not speak.) I enclose a press copy of this as a specimen. All parties to whom I have recommended your Ink for copying have exclusively adopted it.

To Mr. Stephers,

1 am, Sir, yours respectfully,

51, Stamford-street, London.

THE FOLLOWING WAS COPIED FROM A NEW YORK PAPER AFTER THE GREAT FIRE.

To W. W. Rose, Esq. New York.

Dear Sir.—In answer to your note, we would state that the only use we made of Blue Ink in our books was to place a number against the checks in our Check Book. When this book was first recovered from the ruins the numbers had entirely disappeared, but by exposing the book to the air the writing became legible. The ink we used was nor Stepheus' Blue Writing Fluid, but was a common article, and was put up in a glass bottle. In our safe, and exposed to the same heat, we had some Invoices which had the Deputy Collector's signature on them, written with Stephens' Blue Writing Fluid, which signatures were as distinct and legible when taken from the safe as they were before the fire.

Your obedient Servants,

CROCKER and WARREN.

VEGETABLE PARCHMENT

THE FOLLOWING ARE A FEW OF ITS APPLICATIONS:—

BOOKBINDING.—Vegetable Parchment combines the strength and cheapness of Forril, with the elegance and finish of Vellum, and when dyed can be applied to the highest styles of Bookbinding. It is used for Ledgers, Day Books, Bankers' Pass Books, and every other kind of Account and Memorandum Book.

BOOKS AND PRINTING.—For Ledgers and other Books requiring indestructible leaves, it takes the place of Linen Paper, and can be used with great advantage for Maps and Plans.

MOUNTING.—For Mounting Documents, Plans, Drawings, dee, requiring careful preservation, it is invaluable. FOR COMMERCIAL PURPOSES, where lightness, strength and durability are required—as in Bills of Lading, Foreign Bills of Exchange, Policies of Insurance, Scrip Certificates, dee, dee, FOR LEGAL PURPOSES, it possesses advantages over Animal Parchment on account of the ease with which it can be written upon, and its resistance to the action of water, acids, or other chemical agents. It can be used for Mortgage Deeds, Registries of Marriages, Baptisms, dee; Wills, Agreements and every kind of legal document.

FOR ENGINEERS AND ARCHITECTS.—In its application for Tracing and Multiplying Drawings, it effects a saving in time and labour which its almost incalculable. It is prepared to combine the transparency of Tracing Paper with the strength required for working Drawings, which are not liable to injury by water.

The Price of this New Material is much Lower than that of Animal Parchment.

T. J. & J. SMITH'S METALLIC BOOKS.

The superiority of SMITH'S METALLIC BOOKS is generally admitted where it is required that the Writing should be Permanent. These Books will be found to offer all the necessary conditions; the Writing will appear distinct and indelible, hence the great advantages for Commercial purposes. The Metallic Book is a complete substitute for Pen and Ink; and, from its variety in Shape and Size, is a desideratum for the Merchant, the Commercial Traveller, the Farmer, and the Public generally.

SMITH'S PATENT EXPANDING POCKET BOOKS.

This POCKET BOOK is particularly recommended for its increased efficiency in admitting of being Distended, which may be termed, SAFETY POCKETS, fitted up with Metallic Memorandum Book and Ever-pointed Pencil.

SMITH'S WANIFOLD WRITERS.

The peculiar advantage of this Invention consists in the capability of taking one or more Copies, either in Black or Blue Writing, simultaneously, as distinct and as permanent as Black or Blue Writing Inks. The Paper is so prepared that it retains all its properties in the hotest or coldest climate, and for any period.

COPY OF LETTER FROM DR. URE, -

Having carefully tested HYDE AND CO.'s INKS, I find that their "Finest Black Ink" docs not thicken like ordinary Inks, is very fluid, speedily becomes a very intense and abiding black, and exercises no corrosive action on Steel Pens. Their "India Fluid" appears to me well adapted for rapid writing; it flows freely, and in no way injures Steel Pens; does not thicken, writes most legibly, and after the lapse of a few hours becomes a very intense and abiding Black.

COLONEL WM. HY. MEYRICK. | JOSEPH WM. THRUPP, Esq. GEORGE DODD, Esq.

This ASSOCIATION offers to Assurers the security of an ample Guaranteed Capital in addition to a large Fund accumulated by the investment of the Premiums received.

The Rates of Premiums are moderate. The Profits are divided every Five Years.

The next Division of the Profits will be made in 1862, and Assurances effected prior to the 1st of January, 1861, for the whole term of life, on the participating scale of premium, will share therein.

The Additions made to the Sums Assured by Policies which have Participated in the tour divisions of Profit up to 1857, have averaged more than 40 per Cent. of the Premiums paid on them.

When an Assurance is effected for the whole of Life, and the age does not exceed Sixty, Ouc-half of the Annual Premiums for the first Five Years may remain on Credit at Five per Cent. interest, to be paid off at the expiration of the Five Years, or remain as a charge upon the Policy, as may be agreed upon.

Loans Advanced to the Assured on the Security of their Policies after Two Annual Premiums have been paid on them. Immediate, Deferred, and Survivorship Annuities granted upon favourable terms.

The Stamp Duty on Life Assurance Policies is paid by the Office.

Apy information respecting either Fire or Life Insurances can be obtained on application at the Office, or to any of the Agents.

HIGH-STREET, EXCHANGE. OFFICE,

The system of the NORTH BRITISH INSURANCE COMPANY combines the benefit of Mutual Assurance with the safety of a large Protecting Capital, and affords all the facilities and advantages which can prudently be offered by any Life Assurance Office.

ADVANTAGES OFFERED BY THIS COMPANY.

1. Nine-tenths (90 per cent.) of the Profits, or, in other words, the whole of the Profits arising from the Life Business, after setting aside one-tenth for the guarantee, are divided among the Assured entitled to participate.

2. Bonuses may be added to the sum assured, or surrendered for a cash payment, or applied to

the reduction of the future Premiums.

3. A Prospective Bonus of one per cent. per annum is allowed on Policies which have subsisted for five years, which may become claims previous to the next Investigation in 1865.

4. The sum insured may be made payable at any given age, or at death if it occur previously.

5. An ascending scale of Premiums, whereby Policies may be effected at the lowest possible rates.
6. On Insurances for the Whole Period of Life, half the Premium may remain on credit for

the first five years, or one-third during the convenience of the party assured.
7. No Extra Charge for residence in British North America, the Cape, Australia, (excluding the Diggings,) New Zealand, Port Natal and parts of the United States, and no licence required

except for the voyage.

8. On proof of age, and by special application, Policies are declared unchallengeable from and after the expiry of Five years from their date, and parties, on receiving a licence may go to any part of the world without incurring the forfeiture of their Policies—thus making the Policies of the Company good marketable securities.

9. Advances made on Policies, to the extent of the security they afford, when the value amounts

to £50 and upwards.

10. No Entry Money or other charge. Policy Stamp paid by the office.

IMPORTANT ADVANTAGES.

To meet the exigencies of parties, and to render the benefits of Life Assurance more generally available, the Directors have adopted the following new and important principles :-

1. APPLICATION OF PROFITS TO THE PURCHASE OF AN ANNUITY.
By this system a party not only secures the payment of the sum in the event of his death before 65, but at

his option he may convert the Policy with its Bonuses into an equivalent Annuity commencing at 65.

2. HALF PREMIUM SYSTEM.

By which a party may secure all the benefits of the Half Credit System without any debt being incurred.

3. DOUBLE INSURANCE SYSTEM.

By wbich, for a modedate uniform Premium, a Policy may be secured, which will increase each year until, in 20 years, the sum in the Policy is doubled. This system is particularly advantageous to young lives. For further explanation of these new principles, and for the Rates applicable thereto see the Company's

Prospectus.

ANNUITIES.

1. Immediate Annuities are granted on favourable terms.

2. Deferred Annuities, to commence at any specified age, may be secured, either with or without return of Premium.

3. Survivorship Annuities may be secured with or without return of Premium.

REVERSIONARY INTERESTS.

The Company are ready either to purchase Reversionary Interests and Life Rents, or to make advances on them to the extent of the security they afford.

INSURAN

The Company INSURES against FIRE—Silk, Cotton, Woollen, and Flax Mills, Buildings of all descriptions, Furniture, Stock in Trade, Merchandise, Agricultural Stock, Implements of Husbandry, and effects of every kind, at the lowest rates of premium corresponding to the risk.

Farming Stock is Insured without the Average Clause, and loss and damage by Lightning thereon made good. No charge is made for Policies when the sum insured amounts to £300, or for Transfers from other Offices.

Insurance for seven years charged for six years only.

Losses settled with promptitude and liberality. A duty of 3s per cent. per annum on all property Insured from Fire in Great Britain and Ireland is payable to Government, with the exception of Farming Stock and Public Hospitals, which are exempt.

The Company bolds itself responsible for damage done by explosion of Gas, such explosion taking place

within buildings on or in which this Company has Insurance, without extra charge.

Prospectuses, containing Tables of Rates and every other information, may be bad at the Head Office in Edinburgb, or at any of the Company's Agencies in the country.

This Office presents to the Public the following advantages—undoubted security in large accumulated funds under 34 ears' existence, in addition to subscribed capital; Nine-tenths of whole Profits divided among participating Policy-holders. Previous Additions on the oldest Policies now range from upwards of £44 per cent. to upwards of £140 per cent. of the uma assured, in many instances more than doubling the original amount.

Bonuses can be surrendered or applied to reduction of Premiums. By the latter course, many Policy-holders have edeemed their Premiums, with a considerable Bonus still attaching to the Policy, and increasing.

Later Entrants in proportion to age, endurance, &c. equally satisfactory. For details, see Reports and Prospectus. The principle of Division confers the Highest Benefits on all First-class Lives. See Prospectus for List of Benefits actually side to the Assured.

SCOTTISH UNION FIRE AND LIFE INSURANCE COMPANY.

LONDON, 37, CORNHILL: DUBLIN, 52, DAME STREET.

ESTABLISHED 1824.

CAPITAL FIVE MILLIONS STERLING.

LIFE DEPARTMENT.

Parties about to effect Life Assurances should attend especially to the following points:

I. The CHARACTER of the Company, and the SECURITY offered by it.

II. The RATES of Premium demanded.

III. The BONUS or RETURN of Profits declared upon the Policies.

In relation to all these points, the Scotter Union Insurance Company may be favourably contrasted with similar institutions, and the great and progressive fucrease from year to year in the number and amount of the Insurances proposed to this Office, evinces in a satisfactory manner the character and position it holds in public estimation.

Bonuses have been declared in 1841, 1846, 1851 and 1856.

At the last investigation, in 1856, a Reversionary Bonns was allocated upon those Policies entitled to participate, in proportion to the Premiums paid during the five preceding years, varying from about One to upwards of One and a Half per Cent. per annum on the sums Assured, according to age and duration of the Policy.

The next investigation into the LIFE DEPARTMENT and DECLARATION OF BONUS falls to be made as at 1st August, 1861, and parties taking out Policies before 1st August, 1860, will participate in one year's additional Bonus over later entrants.

FIRE DEPARTMENT.

Property of almost every description may be insured against Accidents arising from Fire, by the payment of a small annual preminm.

The Fire Duty paid by this Company to Government is now £30,000 per annum.

The sum insured on Farming Stock, (free of Duty.) amounts to £1,701,385.

This Company, since its commencement, has paid upwards of £760,000 for Life Claims, and upwards of £640,000 for

Prospectuses, and all other information, may be had on application at the Head Office, or at any of the Company' Agents.

INSURANCE COMPANY. CALEDONIAN

ESTABLISHED IN 1805.

INCORPORATED BY ROYAL CHARTER AND ACT OF PARLIAMENT

EDINBURGH-

The prosperity of this Company has been very marked, by the steady increase of the Business in all its branches, and by the increased advantages which have been declared at each Division of Profits to the Assured in the Life Department.

A continuation of this prosperity has been evidenced at the close of the present year (14th May) by considerable additions of the number of the Policies Issued, by the Losses being Moderate, and by the Guarantee Funds being nucle increased.

The prospective Bonus declared at last investigation out of the realised Profits, and payable on Policies which lapse by leath betwixt the periods of division, is equivalent to an annual Torns.

The Directors are anxious that the Life Policies of the Computy should obtain all the advantages accruing to them from a prosperous and economically-managed business, and they have every hope that the Benefits to Policy-holders will be consequently anguented.

onsequently augmented.

The Life Funds are kept quite distinct from those of the Fire Department, while they are almost wholly invested in Fovernment or Landed and Heritable Securities.

VOLUNTEER RIFLE AND ARTILLERY CORPS.

As doubts have been expressed as to whether Policies effected with this Company would become void by the Assured ecoming Volunteers in the Rifle or Artillery Corps, and, in case of invasion, falling in the service of their country, the Directors hereby intimate that their Policies will not be affected by any such contingency; and any party may, on application to the Head Office, have their policies endorsed to this effect.

FIRE DEPARTMENT.

The Company Insures Houses, Mannfactorics, Rents, Furniture, Goods, and Merchandise, Farming Stock, Shipping in out and Dock, and while Building or used in Navigable Canals, and almost every other description of property, from loss or amage by Fire, at Moderate Rates.

Loans granted on Heritable er landed Securities.

COUGH BELLENG'S LOZENGES.

TOR half a century this well-known remedy for Pulmonary disorders has successfully stood the test of public approval, and their usefulness has been extended to every clime and Country of the civilized world. They may be found alike on the gold-fields of Australia, the back-woods of America, in every important place in the East or West Indies, and in the Palace of Pekin. During this long period they have withstood the pretensions of numerous inferior rivals, and are now the acknowledged antidote, for Cougbs, Colds, Asthma, &c.

Prepared and Sold in Boxes, 1s 13d, and Tius, 2s 9d, 4s 6d and 10s 6d each, by Thomas Keatino, Chemist, &c. 79, St. Paul's Churchyard, London. Retail by all Druggists and Patent Medicine Vendors in the World.

N.B.—To prevent spurious Imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraven ou the Government Stamp of each Box, without which none are genuine.

"Paladium Office," Castrics, St. Lucia, West Indies, 29th August, 1859.

Sir,—I bave the honour to inform you that there is not a box of Keating's Cough Lozenge, to be got in this Island. A supply of the same shipped to my order, would be a great benefit conferred on the public. Their efficacy has here proved already by many persons, who have heen relieved from severe Coughs and Colds, and they are considered also as a good tonic. I wish you will, on receiving my letter, forward a supply by the mail packet.

I remain, Sir, yours truly, MARTIAL ANTOHNE.

(BERRENC'S.) CERTIFIED IS EN'S EN SHOME MA TABLETS,

"CAUTION.—Whereas spurious compounds are universally offered for sale under the titles of "MACASSAR OIL,"
"KRALYDOR," &c. &c. it is essentially necessary to purchase either of the Proprictors, or of respectable Wholesale
Perfumers and Medicine Vendors, who make a liberal allowance to Shippers, &c. and particularly to see that the word
"ROWLANDS," precedes the name of the article on the wrapper or label of each, with their signature, as above in red ink.

Sold at 20, Hatton Garden, London, and Retail by Chemists and Perfumers.

KAYE'S WORSDELL'S P

These Pills are prepared only by JOHN KAYE, Esq. of Prospect Hall, Woodford, Essex. and have for upwards of twenty years maintained their reputation as the

During the whole of that time they have commanded a large and constantly increasing sale, and have been used with the best effect by persons of all classes, from the families of the Nobility to those of the humblest Artizans and Labourers. They are entirely FREE FROM MERCURIAL, ANTIMONIAL, and other MINERAL OR DANGEROUS SUBSTANCES, and are compounded of the purest and most carefully-selected Vegetable Ingredients. Unlike many other medicines, they are harmless in their nature, while powerful in operation. Acting in harmony with the human system, they correct those morbid states of the liver and organs of digestion which are the fruitful sources of so many lingering and fatal diseases; PURIFY THE BLOOD, promote a due secretion of bile, and a healthy circulation of the finids, and restore the lost balance of all the bodily powers; thereby tending to ENSURE ROBUST HEALTH AND STRENGTH. They are especially efficacious in the cure of

Ague, Asthma, Bronchitis, Bilious Disorders, Bowel Complaints, Chest Affections, Diarrhœa, Dizziness.

Eruptions of the Skin, Flatulency, General Debility, Gout, Headache, Habitual Costiveness, Heartburn, Indigestion,

Influenza. Jaundice. Liver Complaints, Loss of Appetite, Nervousness, Piles, Rheumatism, Stomach Affectious, Serofula, Spasms, Sore Legs, Ulcers, Worms, δε. de. de.

HUNDREDS OF CASES OF CURE ACCOMPANY EACH BOX.

As a preventative of disease, by assisting nature to resist and expel the noxious influences of impure atmosphere, residence in damp localities, sedentary habits, or unwholesome food, their value cannot be overrated; and thousands who have tried them have been preserved from painful disorders, ending in premature death, which so often follow a neglect of the deterioration of the system arising from such causes. To FEMALES at all ages, and under all circumstances, they are peculiarly serviceable, and may be taken by the most delicate with the perfect assurance of beneficial action. Their constant use IN FAMILLES would prevent many a long doctor's bill, with previous sufferings and miseries. The VERY NUMEROUS TESTIMONIALS which reach the Proprietor as the spontaneous expressions of gratitude on the part of heads of Families, prove that, except in rare instances, where Kaye's Worsdell's Pills are used, NO OTHER MEDICINE IS EVER REQUIRED.

To Emigrants to various parts of the World.

All Emigrants should provide themselves with these Pills, as, by their mild yet efficacious properties, they prevent or speedily remove the various diseases produced by a sea voyage and chango of diet. They will also be found of immense value after arrival in the Colonies, since it appears from public statements that amongst the articles in greatest demand there, are really good patent medicines—the limited supply being charged at most exorbitant prices. Sold in boxes at 1s 1½d, 2s 9d and 4s 6d each, at the Depôt, 22, Bread-street, London, and by all Patent Medicine Dealers.

IMPORTANT CAUTION.—None are genuine unless the words "WORSDELL'S PILLS, BY JOHN KAYE," are engraved on the Government Stamp, and, as a further protection, purchasers are requested to observe that the Coat-of-Arms and the Autograph of the Proprietor are printed on the directions wrapped round each box, to imitate which is felony.

No. 75, CARVER STREET, SHEFFIELD.

Extracted from the last Edition of "INSTRUCTIONS TO YOUNG SPORTSMEN, in all that relates to Guns and Shooting," by Lieut.-Col. P. Hawker edited by his Son, Major P. W. L. Hawker.

The Flasks manufactured by Messrs. Hawksley, of Sheffield, made with German Silver tops, which are less liable to corrosion, are of very superior workmanship; these are, of course, more expensive than the common ones, but as a powder horn is one of the most important articles in your Gun-case, treat yourself to one of first-rate manufacture, which is less liable to go out of order, and will prove the cheapest in the end.—Page 132.

Extract from a recent Work on the "SCIENCE OF GUNNERY," by William Greener, Asso. Ins. C. E. Author of "The Gun," dc. dc.

G. and J. W. Hawksley's Elasks are not only safe and vastly improved in workmanship, but the mechanism is of a superior order to anything that has been seen previously; their Shot Pouches, Small Flasks, &c. are also of the first order, so much so as to justify us in saying they make by a long way the best articles of the present day.—Page 313.

THOMAS BRADFORD, CHINIST WASH

PATE

CATHEDRAL STEPS, MANCHESTER.

FLEET STREET,

The reputation of my Washing Machines is, I trust, sufficiently well established as to require little preface or comment.

My sole aim, since obtaining Letters Patent, has been to combine with the mechanical simplicity of my Invention the very best class of Workmanship—that I have been tolerably

sumplicity of my invention the very best class of Workmanship—that I have been tolerably successful the satisfactory Working of my Machines in all parts of the United Kingdom, (I may say in all parts of the globe,) fully attests.

The producing power of my New and Extensive Works, replete with New and Improved Machinery, especially adapted for the manufacture of my Patent, and which is under my own personal superintendence, is now such as to enable me to execute all Orders, for either HOME or EXPORT, with promptitude and despatch, satisfactory alike to both buyer and myself.

THOMAS BRADFORD, Fatentee.

The Patentee holds over 1800 Manuscript Testimonials for the No. 2, or Family Washing Machine, alone, and received, during six weeks of 1859, the following FIRST PRIZES, in competition with every description of Washing Machine:—

P. R. DAVIS AND CO'S NEWLY-INVENTED FORCE PUM

For the Extinguishing of Fires, Distributing Liquid Manures on Farms, Water for Bowling-greens, and other purposes, and for Emptying Tan-pits, no equally efficient substitute can be offe ed.

It is admirably adapted for Hothouses, Greenhouses and Gardens throwing Water through a Rose Jet so

fine as to fall with zephyr-like gentleness on the most delicate Fruits and Flowers

It is especially adapted for Warehouses, Mills, Radway Goods Stations, Theatres, Large Mansions, or buildings wherein hazardous trades are conducted, or that are liable to sudden ignition.

The Pumps and Air Vessel are placed within a Cistern on Wheels which, being kept constantly filled with Water, secures an immediate supply, a point of vital importance on the breaking out of a fire.

It is exceedingly Portable, can be effectually worked by one or two men, and at a comparatively trifling cost.

PIANO-FORTES & ORGANS TUNED BY THE YEAR OR OTHERWISE.

GREAT IMPROVEMENT IN THE CONSTRUCTION

PIANO-FORTES.

BY HER MAJESTY'S ROYAL LETTERS PATENT, And by Letters Patent from his Imperial Majesty NAPOLEON III. EMPEROR of THE FRENCH. ENGLISH PATENT Sealed April 5th, 1855. DITTO FRENCH Sealed May 14, 1855.

DREAPER'S PATENT COMPENSATING BARS AND HARMONIC CHAMBERS.

Specimens of this beautiful improvement, applied to their OBLIQUE GRANDS, COTTAGES, &c. may now be seen at

Son's. W. P. DREAPER &

PIANO-FORTE MAKERS. 56, BOLD STREET, LIVERPOOL.

Testimonials from some of the first Professors in Europe may be seen upon application.

"I have carefully examined the principle of Mr. W. P. Preaper's new patent improvement in the manufacture of piano-fortes, and I have great pleasure in bearing testimony to its efficiency in producing a remarkably pure and powerful tone. The touch is extremely agreeable, and very sensitive to the slight or heavy pressure of the finger. The treble tones expecially are exceedingly beautiful, elear, and vocal.

"26 Baker-street, Portman-square, London,"

"36, Baker-street, Portman-square, Loudon."

"I have heard and played many pianos of many very great makers in England and in France, but none of them have given me such pleasure as those of Messrs. Dreaper and Son. as they can be used for an orehestra, producing the fine effects almost unmistakeably, and I am perfectly satisfied of their much greater durability than others.

EVANS' IMPROVED PATENT CAB

JAMES EVANS,

CARRIAGE MANUFACTURER,

32 AND 34, TARLETON STREET,

CHURCH STREET, LIVERPOOL,

Begs to intimate to the Nobility, Gentry, and Car Proprietors generally that the above Patent consists in the introduction of Springs, applied to the Shafts and the lower part of the body, thereby securing a combined action, which effectually removes the unpleasant motion experienced in this class of vehicles. Uneven roads produce no effect, as the Patent Springs preserve an equal balance between the Cab and the Shafts under all circumstances. The draught is also considerably lightened. The Patent includes several other improvements, an important one being the reduction of the weight of the Vehicle, the Patent Cab weighing Seven Cwt. consequently more than Two Cwt. lighter than those of ordinary construction. The Patent can be adapted to any of the Cabs now in use, and will be found a great acquisition to Medical Practitioners' and Gentlemen's private Cabs.

J. S. and Co. having had upwards of twelve years' experience in the manufacture of these Machines, and, having recently taken out a Patent with still further improvements, which for efficiency, simplicity, durability and practical unrivalled. They have obtained the most unprecedented approbation of Noblemen and Gentlemen who have them in use.

have them in use.

J. S. and Co had the head Prize awarded at the Liverpool and Manchester Agricultural Show, 1857; Silver Medal, 1858; Royal Irish Show, Silver Medal, 1858; Ormskirk and Southport, Silver Medal, 1850, therefore further comment is unnecessary.

N.B.—By using these Machines, there is a positive saving of one-half the time, one-half the soap and fuel, the linen is a much better colour, the dirty water being pressed out, a process very much superior to hand wringing, which is well known to be so iniurious to the linen.

CONSTITUTION.

The Company was established by Deed of Settlement, and is empowered by Act of Parliament. By the Act of Parliament it is provided that the liability of Proprietors shall be unlimited. By the Deed of Settlement that all Directors must be Proprietors in the Company.

The Policy-holders incur no liability of Partnership, because they do not participate in profits. The Bonuses attached to the Life Policies are fixed and known when the Policy is issued, and are a first charge on the Profits of the Department, although not contingent on any Profits being made.

The Policies do not contain any clause restricting the liability of the Proprietors to the amount of the Company's Funds previously unabsorbed. In addition, therefore, to the Annual Income and Invested Funds, together amounting to nearly Two Millions of Money, the guarantee is held of the personal liability of nearly 900 Proprietors.

BUSINESS.

The Company has proved its ability to meet any demand upon its Funds, by the discharge of Claims under its Policies amounting to considerably upwards of a Million and a Half Sterling.

The amount of Business in both Branches, as shown in the foregoing table, is, in the aggregate, perhaps larger than that of any other Fire and Life Office in existence.

MORDAN'S

REGISTERED GOPYING PRESS AND INKSTAND,

WITH STATIONERY CASE, IN OAK OR WALNUT.

This usoful novelty combines both the above purposes, and only occupies the same space as an ordinary Inkstand; thus affording the advantage of taking a Copy of any writing within the drawer of the Inkstand without the writer leaving his seat.

The necessary appendages are simply, two leaves of Oiled Paper, two leaves of Blotting Paper, and a small Brush, or piece of Sponge, for the purpose of damping the leaves of the Copying Book as required.

TO DAMP THE COPYING PAPER.

Dip the Brush in a little clear water, and pass it lightly over the leaf of the Copying Book until the water be equally diffused over its surface, it is then fit for uso,

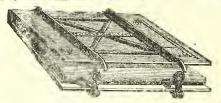

TO TAKE THE COPY.

Place the writing on the surface of the moistened leaf, on this writing lay a leaf of Oiled Paper, and another piece of Oiled Paper under the damp leaf; the Book must now be closed, placed in the drawer, and, after shutting the drawer, a very slight pressure with the screw will produce an excellent Copy.

It is essential that properly prepared Copying Ink should be used.

THE ABOVE MAY BE HAD WITH INKSTAND AND COPYING PRESS ONLY.

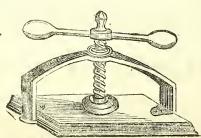

PATENT PORTABLE COPYING PRESS.

This Copying Press occupies but little space beyond that of the usual Copying Book, and is therefore very advantageous.

DIRECTIONS FOR USING.

Damp the Copying Paper, and place the writing to be copied in the manner directed for using the subjoined Press and Inkstand combined, then close the book and force the two metal clasps into their proper position, let it remain about a minute, and the Copy will be taken.

CHAFF CUTTING MACHINES.

Richmond & Chandler

Have lately obtained LETTERS PATENT for

IMPROVEMENTS IN CHAFF MACHINES,

Whereby the substitution of Steel Mouth Plates for Iron ones have placed them in advance of every attempt at successful infringement by unprincipled copyists. In securing the mathematical correctness of construction, excellence of design, and perfection of workmanship, regard for utility and completeness is not the less conspicuous. The

NEW MODE FOR KEEPING THE KNIVES "STEELED"

Affords the best means of maintaining regularity and protection to the wearing parts of the Machine.

The result, as might be expected, has fully proved that every known improvement is combined in these Machines, with merit peculiarly and pre-eminently their own. It is gratifying to the Patentees that conclusive evidence is guaranteed by the unquestionable fact that at every Show held during the present year, where they have personally competed, or been adequately represented, the

FIRST PERMIUM

Has invariably been awarded in their favour.
